PROJECTS

AICRM – AI Powered CRM System | React, Express, Nodejs, MongoDB, Gemini

2026

- A modern, full-stack AI-powered Customer Relationship Management (CRM) application
- AICRM helps sales teams efficiently manage leads, contacts, sales pipelines, follow-up tasks, and notes while leveraging **Google Gemini AI** for intelligent lead analysis, email generation, and sales insights.
- Designed with a premium fintech-inspired interface using **Tailwind CSS**, and a custom **shadcn-style UI**.

Kribb- Real Estate Mobile App | React Native, EXPO, Typescript, Supabase

2026

- Built a cross-platform Real Estate Listings mobile application for iOS and Android using React Native and Expo.
- Implemented modern UI styling with Tailwind CSS and NativeWind, along with scalable state management using Zustand.
- Integrated Supabase PostgreSQL backend for authentication, real-time property listings, and data management.

POS System | Java, Spring boot, React, MySql

2026

- Built a full-stack SaaS POS system using React, Redux, Spring Boot, and MySQL with multi-branch and role-based access architecture
- Developed 14+ RESTful APIs for inventory, billing, payments (Razorpay), analytics, and customer management
- Implemented enterprise features like dashboards(admin,branch manager), reports, and subscription model

ChitChat - Real Time Messaging App | React, Node.js, Socket.io, MongoDB

2025

- Developed a full-stack real-time chat application using **Socket.io** enabling instant messaging.
- Implemented user authentication, message storage and online/offline status using MongoDB.
- Built responsive UI with React Hooks and Context API for global state management.

CERTIFICATIONS

Master in Full Stack Development
